A most attractive pair of French 19th century Louis XVI st. patinated bronze, black Belgium marble and ormolu urns with removable lids. Each urn is raised on a square marble base with canted corners below the reeded and moulded pedestal. All below an exquisitely chased urn, decorated by foliage and a beaded swirled stem and acanthus leaves facing downwards. The removable lid is similarly chased and centered by a charming patinated bronze boy in a kneeling position, holding up a laurel wreath above his head. Wonderful and rich patina throughout.
