A striking and extremely decorative pair of French 19th century Renaissance st. patinated bronze, Opaline, and black Belgian marble ewers/urns. Each urn is raised by an elegant circular black Belgian marble base with a fine wrap around double mottled border. The socle shaped pedestal supports display four richly chased dolphins above elegant reeded bands. The beautiful and very unique Opaline bodies are encased within impressive tapered supports with handsome bearded men amidst pierced scrolled foliate designs, charming grapes, and seashell reserves. The elegantly curved spouts are decorated with charming putti and lovely scrolled foliate designs with impressive scrolled handles leading up the sides with large acanthus leaves, maidens, and dolphins. All original patina throughout.
