A handsome and most decorative pair of French mid 19th century Renaissance st. patinated Bronze and black Belgian marble lidded urns. Each urn is raised by a square black Belgian marble base with concave corners. Above is wonderfully detailed socle support designed with intertwined foliate garlands. The central stem leads to the fanciful and richly chased urn with bold leaves, beaded bands, and a female mask. The urns have scrolled pierced arms all below the fitted removable lid with a winged dragon above. All original and rich patina throughout.
