A handsome pair of French mid 19th century Renaissance st. patinated bronze lidded urns. Each urn is raised by a square black Belgian marble base with concave corners. Above is the support of the urn designed with intertwined foliate garlands. The central stem leads to the fancifully chased urn with bold leaves flanked by beaded bands and a female mask. The urns have 'S' scrolled pierced arms all below the fitted removable lid with a winged animal finial. All original and rich patina throughout.
