A whimsical and finely detailed pair of Italian 19th century Baroque st. glazed patinated wood wall brackets. Each most decorative wall bracket is centered by a berried foliate bottom finial that hangs below truly impressive and colorful scrolling acanthus leaves and floral accents. The focal point of each lovely wall bracket is the winged mythological bust tastefully decorated with additional foliate designs as well as a palmette head crown at the center. The uniquely shaped curved wooden top is beautifully decorated with colorful floral designs and a reeded band around the edge of display shelf.
