An impressive and very unique Swedish 19th century Empire st. polychrome, giltwood and fossilized marble side/center table. The table is raised by three most decorative deer shaped polychrome legs with handsome hoof feet and giltwood foliate accents below striking richly carved caryatids with each leg connected by a fine concave stretcher with a central foliate reserve. Above each leg are elegant giltwood block palmettes flanking the polychrome frieze decorated with lovely wrap around foliate band all below a superb reeded border. Above is the original fitted fossilized black marble top framed within a fine polychrome border.
