An impressive and very large scaled true pair of French 19th century Neo-Classical st. patinated Bronze statues of dancing Putti. This very decorative pair of statues are mounted on square rectangular black Granite bases with finely rounded edges. Above the bases are highly detailed cloud like platforms where each of the handsome statues above are standing. Both male figures are standing on one leg and extending an arm upwards while dressed in a flowing fabric seemingly blowing in the wind. Wonderful expressions and rich warm patination throughout.
