A lovely and most impressive Italian 19th century white Carrara marble statue. This charming finely carved statue is supported on a square marble base with cut corners and displays a mother carrying her infant child on her shoulder as she stands adjacent to a foliate decorated tree stump. While she carries a bird in one hand, she is dressed in a tied flowing garment and her curly hair is held back with a loosely tied headdress. The loving touch of a mother is proved in the joyous expression on her child's face as she holds him for safety.
